

# Important information about your Homeowners Insurance Policy

**What fire department is listed on your homeowners insurance policy?**

It should be the *Belgium Cold Springs Fire Department*.

Insurance companies pay a small portion of your homeowners insurance premium to the fire department identified in your policy.

If your policy lists another department, the department that protects you and your home will receive less funding.

An incorrectly identified fire department means your fire department will have less funds for vital departmental activities.

Since the **Belgium Cold Springs Fire Department is a 100% volunteer organization**, we rely on the insurance funds.

Please take a moment to check the name of the fire department on your homeowners policy.

*Request that your insurance agent correct the policy immediately if your department is incorrectly listed.*

Thank you,

Belgium Cold Springs Fire Department
